

**TABOR VILLAGE**  
Providing Care from the Heart

March 13, 2020

Dear Tabor Family,

As we continue to work hard at keeping your loved ones safe and protected from COVID-19, we would like to share with you some new protocols we have put in place effective immediately.

1. New Visiting Hours - For Tabor Home and Valhaven, hours are 11am-1pm and 5pm-7pm. Please only come to visit during these times.

2. Designated Family Member - We're asking every family to pick only one family member as the designated visitor for the foreseeable future. This designated family member will be added to the entry list and no other visitors will be allowed to visit other than the name we have on record. Please reply to this email or email [BSomerville@taborvillage.org](mailto:BSomerville@taborvillage.org) with the first and last name of your chosen family member who will be visiting your loved one. Let us know as soon as possible and preferably no later than 12pm Monday, March 16th.

3. Screening Protocol - Every person who enters one of our homes will be screened at the entrance. Screening involves a few simple questions and a possible temperature check if you have shown any signs or symptoms of illness in recent weeks. If your temperature is above 38 degrees, you will be turned away.

We understand these protocols are inconvenient and hard to hear, but for the sake of your loved one and every other family's loved one, we are using extra precautionary measures to minimize the risk of COVID-19 entering any of our homes. So far, we have zero confirmed cases and we would like to keep it that way.

For further information on our updated infection control plan, you can visit our main website at [Taborvillage.org](http://Taborvillage.org) or any of our social media channels. We will continue to keep everyone updated regularly via email, website, social media channels and on-site as well. Thank you for helping us keep your loved ones safe.

Sincerely,

Dan Levitt  
Executive Director
